

## AirDIV Insulation 10 mm - WPF

---

<b>Composition:</b>	100% polyester, non-woven
<b>Properties:</b>	Self-extinguishing, white, polyester non-woven oil and water-repellent
<b>Volume weight:</b>	20 kg/m <sup>3</sup> ± 10% (DIN EN 29073-1)
<b>Thickness:</b>	10 mm ± 25% (DIN EN ISO 9073-2)
<b>Fire resistance:</b>	EN 45545-2 2016, HL3 for R1 materials FMVSS 302, DIN 75 200 ISO 3795, burning speed < 100 mm/min
<b>Resistance to temperature:</b>	-50 to + 150°C
<b>Heat conductivity:</b>	0,036 W/(m.K) for 10°C (EN 12667)
<b>Benefits:</b>	very good protection against liquids, no any structure damage in vibration tests, resistance against mildew, excellent values of sound absorption, reduce heat loss
<b>Maintenance:</b>
