

AirDIV Insulation

Composition:	100% polyester, non-woven
Properties:	Self-extinguishing, white, polyester non-woven oil and water-repellent
Volume weight:	20 kg/m ³ ± 10% (DIN EN 29073-1)
Thickness:	10 / 20 / 30 mm ± 25% (DIN EN ISO 9073-2)
Fire resistance:	EN 45545-2, HL3 for R1 materials FMVSS 302, DIN 75 200 ISO 3795, burning speed < 100 mm/min
Resistance to temperature:	-50 to + 150°C
Thermal conductivity:	0,041 W/(m.K) for 10°C (EN 12667)
Benefits:	very good protection against liquids, no any structure damage in vibration tests, resistance against mildew, excellent values of sound absorption, reduce heat loss
Maintenance:
