

Composition: 100 % polyester, non-woven

Colour: White

Properties: Fire resistant
Humidity-resistant
Rot-resistant
Compressible with good recovery
Odour free
Recyclable

Density 1200 g/m³

Thickness: 10 / 20 / 30 mm

Fire resistance: HL 3 according to EN 45545-2 for R1 – material
EN 13501-1, B-s2, d0

Thermal conductivity 0,041 W/(mK) lambda declared

Heat transfer coefficient: fabric + insulation + fabric

Thickness of the insulation (mm)	Heat transfer coefficient (W/m ² K)
10	2,08
20	1,3
30	0,94

Maintenance:
